DETAILED ACTION

Reissue Applications

1. The protest filed on 09/22/2004 has been considered by Examiner.
2. The amended claims 1, 24 and 32 are improper because the Certificate of Correction changes must be entered in the reissue application without bracketing or underlining. For example, in claim 1, line 8, filed on October 13, 2006, the recitation "the first [second] and third antenna groups" should be --the first and third antenna group--.
3. The amended abstract and specification filed on 11/08/2005 are improper because the deletions should be indicated with brackets , not strike-through.
4. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

A new oath is required. The oath or declaration must properly identify at least one 35 U.S.C. 251 error being relied upon as a basis for the reissue and that it is indeed an appropriate error for reissue (37 CFR 1.175(a)(1)). For example, "failure to include the following claims in the original patent..." is not an acceptable statement of an error. Any error in the claims must be identified by reference to the specific claim(s) and the specific claim language wherein lies the error. A statement of " ... failure to include a claim directed to ..." and then presenting a newly added claim, would not be considered a sufficient " error" statement since applicant has not pointed out what the other claims lacked that the newly added claim has, or vice versa. Such a statement would be no better than saying in the reissue oath or declaration that " this application

Art Unit: 2821

is being filed to correct errors in the patent which may be noted from the change made by adding new claim." In both cases, the error has not been identified.

5. Claims 1-56 are rejected as being based upon a defective reissue oath under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the oath/declaration is set forth in the discussion above in this Office action.
